## It's Christmas Eve in the Stewart house.

Nathan and Susie are curled up on the couch in front of the warm fireplace and the Christmas tree. While little Robert chomps and drools on the donkey from the nativity scene and young Angela slurps her hot chocolate, the parents begin a soft chorus of "Silent Night, Holy Night." Angela is a bit off-key, and Robert

mostly squawks. But Nathan and Susie share a smile, knowing that the memories from this family tradition will last a lifetime.

Start a new family tradition with this anthology of hymns, narratives, recipes, and crafts that your family will cherish pulling out year after year at Christmastime.

Ever heard that before?  
(Or thought it?)

What about, "*The Bible* has too many errors and edits"? Or, "*The Bible* is merely a mythological story"?

*Bible is merely a mythological story"?*

This book tackles accusations like those head-on. The same guy who wrote *Being Lutheran* compares the Bible to writings that have been deemed more credible, examining historical evidence, witness accounts, and translation concerns. By the end, you'll be able to better defend your faith when its very foundation is attacked. You'll get many of your tough questions answered. And you'll see that when all other texts fall, the Bible still stands—as completely, undeniably trustworthy.

## THEY COME OUT WHEN THE STORE IS QUIET.

They sneak through the shelves,  
find their favorite stories, and eat them.

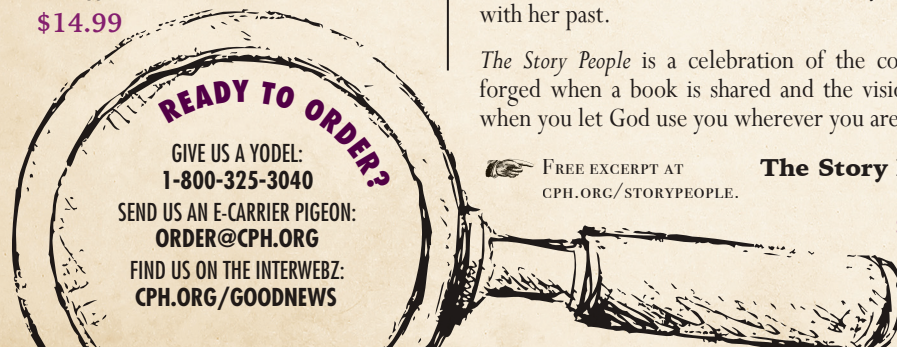

Ok, this isn't really a horror story. Unless you're the main character, Ben Palermo, who the old ladies in town are trying to set up. Ben is thinking of selling his bookstore and leaving town because of the painful memories the store brings up. The ladies want to set him up in order to keep him around. Enter Rosemary, who has a painful past too and is overwhelmed by Ben's charm—and familiarity. When a series of events casts Ben in a suspicious light and a persistent friend makes claims on Rosemary's heart, Rosemary must discover the truth in order to finally reconnect with her past.

*The Story People* is a celebration of the connection forged when a book is shared and the vision found when you let God use you wherever you are.
